Summary

Based in Ioannina, Greece, I specialize in building software solutions across both back-end and front-end. I graduated with an Integrated Master's degree from the department of Information and Electronic Engineering (IEE), at the International Hellenic University (IHU) in Thessaloniki. I have been coding since 2020 and have independently built around 20 projects, gaining hands-on experience with a variety of technologies, frameworks and development challenges. My main goal is to continuously refine my skills and stay up to date with the modern technology advancements.
